

LEADERSHIP COLLECTIVE - SPRING 2022

*An amazing thing can **happen** when a **starfish** loses a limb - **if** it's not eaten by a predator, that is. ... In this case, a severed limb can become an entire body, producing an entirely new **starfish**. Some species of **starfish** can detach their own **arms** without injury with the intention of reproducing.*

The Leadership Collective is designed to Cultivate Multiplication in your Leadership Pipeline!

We asked church planters & lead pastors about their leadership development process, this is what they told us:

- *We don't have enough leaders.*
- *We prefer to develop our own leaders vs. rely on outside institutions.*
- *We struggle to create learning/equipping environments outside of worship services.*

Outcomes for the Leadership Collective:

1. Assess your leadership development process beginning with the newest disciples and growing church planters, pastors & missionaries.
2. Design actions you will take as you implement your leadership pipeline.
3. Benefit from two learning environments: full group and coaching triads.

For more information go to www.infocusnet.org
